

ATC
AMERICAN TRANSMISSION COMPANY

**2014 10-Year
Assessment Projects
PLANNING ZONE 4**

Currently, ATC owns or operates transmission facilities in Wisconsin, Illinois, Minnesota, and the Upper Peninsula of Michigan. Facilities include:

- Approximately 9440 miles of transmission lines
- 96 wholly owned substations
- 419 jointly owned substations
- ATC offices in Madison, Cottage Grove, Pewaukee, DePere, and Kingsford, MI

The information presented in this map document is advisory and is intended for reference purposes only. American Transmission Company owned and operated facility locations are approximate. Depending on the status of the projects shown, the transmission line additions may be for illustrative purposes only and may not reflect the actual routes.

SUBSTATION KEY		TRANSMISSION LINE KEY		EXISTING TRANSMISSION LINES KEY	
SS	New substation Supports transmission or system expansion		345-kV transmission line		69 kV
SM	Substation modifications Upgrades equipment ratings to avoid facility overloads		115-, 138- or 161-kV transmission line		115 kV
T	Transformer Supports local growth and improves voltage levels		Transmission line voltage conversion		230 kV
C	Capacitor bank or reactor Relieves low voltages or high voltages		Rebuilt 345-kV transmission line		138 kV
T-D	T-D interconnection Supports local growth		Rebuilt 115- or 138-kV transmission line		345 kV
			Rebuilt 69-kV transmission line		
			115- or 138-kV transmission line rating upgrade		
			69-kV transmission line rating upgrade
